## Threonine

- 1.Main ingredients: Threonine
- 2.Appearance: White crystal or crystalline powder, odorless, slightly sweet taste.
- 3.Content of effective substances: 99%
- 4.Purpose: For the pharmaceutical, chemical reagents, food supplements, feed additives
- 5.Function: Important nutritional supplements to alleviate human fatigue, promote growth and development. It can protect the cell membrane, it is a water-holding role for human skin.
- 6.Specification: 25KG/BAG
- 7.Origin place: China
- 8.Product picture:

**United Fertilizer Chemical Co.,Ltd.**

9.Standard:

<b>Test Items</b>	<b>Standard</b>
Assay	98.5% min
Characteristic	White crystals or crystalline powder
Specific rotation[a] <sub>D</sub>	-26.0°~ -29.0°
PH	5.0~6.5
Chloride	0.02% max
Sulfate	0.02% max
Ammonium	0.02% max
Loss on drying	0.2% max
Residue on ignition	0.1% max
Iron	0.001% max
Heavy metals	10ppm max
Arsenic	0.0001% max
Bacterial endotoxins	12 EU/g max
